

I am writing in support of K-LOVE radio station which would be affected by LPFM. K-LOVE is a daily staple in our home and would be very sadly missed if we could no longer receive it. K-LOVE brings hope and healing to millions of Americans across the country with its messages and music. It supports wholesome values and is always positive and encouraging. It is always safe for my children's ears, unlike some other local stations. If K-LOVE were to be displaced by an LPFM broadcaster, our community would no longer have that positive, encouraging station where we can be confident that our children will not hear vulgar, inappropriate song lyrics or comments. Americans need more choices in radio like K-LOVE, that support positive family values. Please consider this when making your decision about LPFM stations. Please don't take away this important ministry!

Sincerely,

Tammi Lencke
